Ok, thank you Mark.

Curt,

The current due date of January 14, 2016 is no longer in effect for the responses mentioned below. Some issues have come up regarding sampling for dioxins in the groundwater, and are currently being resolved by EPA headquarters.

Thanks,
Mark Moix, PE

Mark,

Did McKesson meet their extended deadline on the below? If so, could you post it please?

Thank you.

Curt

Curt,

Attached is a pdf of the Outlook e-mail message.

Also attached is EPA's approval letter for the extension. McKesson has been granted until January 14, 2016 to submit response to comments for both the Draft Sampling Evaluation Report (dioxin soil sampling) and the Draft Supplemental Groundwater Tracing Summary Report. The files I posted to the FTP server today are the deliverables only for the dioxin soil sampling. So, they will still be submitting deliverable(s) for the groundwater portion in the near future. I can let you know when this happens.

I have received and will be happy to include your revised written comments to include in the Fourth Five-Year Review Report.
Please let me know if I can be of further help.

Thanks,
Mark Moix, PE

Thank you, Mark. I got "Cardno Response to EPA Comments 12302015-Complete" and "Cardno, Revised Sampling Evaluation Report, Dioxin Risk, Arkwood Site 12302015-Complete." I can't open the file named "Revised Sampling Evaluation Report.msg," presumably because it is a Microsoft email format and I don't use Outlook. Any chance you could make a .pdf of the email message and post that?

In your earlier email, you mentioned that McKesson has an extension until January 14, 2016 for "their official responses to the soil and groundwater comments for both reports." Does that mean they still have deliverables that will be available on or before that date, or did the files you posted fulfill their current commitment for deliverables at this time?

Finally, I had one very minor change I wonder if I could apply to my written comments submitted for inclusion on the Fourth Five-Year Review Report: where I said "Mark Moya" of EPA I should have said "Ruben Moya."

I revised the document I had submitted and attach it here in Word and PDF formats. I hope you can make the correction for me; I don't want there to be any confusion, especially since my comment about Mr. Moya was negative.

Thank you.

Curt
